

BUTTERFLY ATTRACTING PLANTS

Butterflies are attracted to gardens that receive at least six hours of warm summer sun. When planning your butterfly garden incorporate plants for all stages of the butterfly life cycle. Incorporate plants that will provide the larva with a food source and adult butterflies with a nectar source. Plants with an asterisk (*) are important larva food.

Annuals

<u>Latin Name</u>	<u>Common Name</u>
<i>Ageratum</i>	Floss Flower
<i>Antirrhinum*</i>	Snapdragons
<i>Cosmos</i>	Cosmos
<i>Heliotropium</i>	Heliotrope
<i>Lantana</i>	Lantana
<i>Limonium</i>	Statice
