

Lacecap Hydrangeas

The color of hydrangea flowers often changes with the pH of the soil. Pink and red colors develop on neutral to alkaline soils while blues develop on more acidic soils

VARIETY	SIZE (ft.)	DESCRIPTION
aspera Sargentiana	12'-14'	Very large domes of white outer sterile flowers and mauve inner fertile flowers on large shrub with large fuzzy leaves.
Aspera Villosa	12'	Very large domes of bluish-purple surrounded by pale mauve sterile florets. Large velvety dark green foliage and peeling cinnamon-colored stems.
aspera Plum Passion	5-6'	Blush pink to white lacey flowers but the main attraction is the rich purple foliage of this beauty
macrophylla Big Smile	5'	Domed center flower clusters surrounded by blue or pink sterile florets with serrated edges. Dark stems with rich green foliage turns burgundy in fall.
m. Blaumiese (Teller Blue)	4-6'	Stunning shrub with very large florets of lavender to deep violet blue*on large, flat flowers.
m. Fuji Waterfall	3'-4'	This easy to bloom hydrangea has white lacecap blooms with double sepals that cascade over deep green tapered leaves giving a wonderful waterfall effect.
m. Lanarth White	4-5'	Pure white fertile florets scattered among the central blue fertile flowers. The flowers on this compact shrub brighten any shady spot. Good cut flower and dries well.
m. Let's Dance Starlight	3'	Exquisite, charming reblooming lacecap blooms summer-fall on a compact shrub with strong stems. Color is determined by pH; pink in alkaline soil, lilac in neutral and blue in acidic soil.

m. Nightingdale	3-4'	Lacy, open heads of dark blue to purple flowers on upright, neat shrub. Excellent cut flowers.
m. Taube(Teller Red)	4-6'	Large spreading shrub bears a profusion of deep rose to lilac large florets* on large, flat flower.
m. Twist and Shout	3'-5'	Reblooming lacecap from the "Endless Summer" line, this shrub blooms pink in alkaline soil or blue in acidic soil and has beautiful red fall foliage.
m. Zorro	5'	Violet blue sterile flowers surround starry blue fertile flowers (in acid soil) above purple black stems and dark green foliage.
serrata Bluebird	4-6'	Pink to sea blue outer florets* with darker central fertile flowers. As fertile flowers get pollinized , the outer sepals turn over and turn bright pink, regardless of pH. Long blooming
s. Spreading Beauty	2-3'	Pink to lilac lacecap flowers on compact spreading shrub blooms summer to fall. Burgundy fall foliage.
s. Tuff Stuff	2-3'	Large reddish-pink outer florets with contrasting greenish-white eye. Reblooms summer-fall. Burgundy fall foliage.
