

2024 Asparagus List

Garland
NURSERY

VARIETY	DESCRIPTION
Jersey Knight	Crowns are predominately male. Produces high quality spears that are succulent, flavorful, and thick but still tender. Traditional green in color with purple bracts at the tips. Notably productive and highly disease resistant.
Sweet Purple	Crowns are both male and female. The deep burgundy spears have a 20% higher sugar content and are, in general larger, more tender, and less stringy than their green counterparts. It is often eaten raw or as a salad garnish but when cooked, the sweetness shifts to a mild, nutty flavor.

2024 Hops List

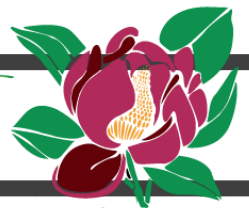

Garland
NURSERY

VARIETY	DESCRIPTION
Centennial	Moderate yielding, vigorous plant grows 15-20' tall by 2-4' wide. Flowers bloom in late July to early August and are mildly fragrant. Alpha Acid content is 9.5-11.5%. Self pollinating.
Nugget	Good yielding, vigorous plant grows 20-25' tall by 3-6' wide. Flowers bloom in late July to early August and are very fragrant. Alpha Acid content is 11-16%. Self pollinating.

2024 Rhubarb List

Garland
NURSERY

VARIETY	DESCRIPTION
Crimson Cherry	Excellent flavor. Fleshy but not tough or stringy; sweet, yet pleasantly tart. Plump stalks grow up to 24", red inside and out. Very productive.
Victoria	Heirloom variety with superior tart flavor. Large stalks are green with a red base. Juicy and tender. Does not get woody. Very productive.
