

# 2024 Currants List

VARIETY	POLLEN	COLOR	DESCRIPTION	USE
<b>Cherry</b>	Self	Red	Shrub is small yet very prolific. Large, deep red berries are firm and juicy with a bright, tart flavor. Ripens in early summer.	Well-suited in pies, jams, sauces.
<b>Consort</b>	Self	Black	Small to medium berries have a classic, musky flavor. Shrub is productive and excellent to use as bird forage or windbreak. Ripens in mid summer.	Great for juice or wine, dried, in jams, as flavoring.
<b>Red Lake</b>	Self	Red	Vigorous bush produces medium-sized, rich red berries with excellent, tangy flavor. Ripens in mid summer.	Perfect for baked goods, preserving, juice.
<b>White Primus</b>	Self	White	Near-translucent berries are impressively sweet and very high in vitamin C. Shrub is compact but heavily produces. Ripens in mid summer.	Superb when fresh. Good as flavoring, jams, adorning baked goods.
